# BACK CONNECTION STEEL/ABS PRESSURE GAUGE

## MA 5101

**Tecofi'**  
VALVE DESIGNER - FRANCE

### APPLICATION

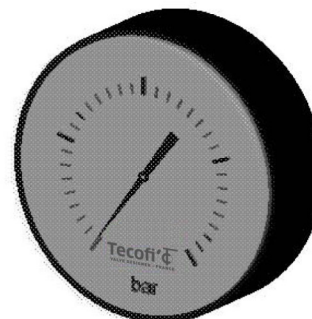

Suitable for all gaseous and liquid media that will not obstruct the pressure system or attack copper alloy parts.

### GENERAL CHARACTERISTICS

Wide range of measures available, contact us.  
Accuracy class : 1,6.

### CONSTRUCTION

| 3    | 1    | Mechanism   | Brass                            |
|------|------|-------------|----------------------------------|
| 2    | 1    | End         | Brass                            |
| 1    | 1    | Casing      | ABS (DN 63)<br>Steel (DN 80-100) |
| Pos. | Qty. | Description | Material                         |

### DIMENSIONS

| DN  | b1   | b2 | G    | Weight (kg) |
|-----|------|----|------|-------------|
| 63  | 26,5 | 47 | 1/4" | 0,08        |
| 80  | 32   | 49 | 1/4" | 0,11        |
| 100 | 31   | 49 | 1/4" | 0,26        |

### WORKING CONDITIONS

Ambient temperature : -40°C / +60 °C.  
Maximum temperature of fluid : +60 °C.

### STANDARDS

Standard pressure entry with parallel thread and sealing to EN 837-1.
